

Forever

Gesaffelstein

I would like to reach the stars, please take my hands
Be my love, I'll be your god, open your eyes
A million miles, a million times, look around you
Beyond your dreams, beyond the stars, they're all for you

Always in front, the world behind
I'll be with you forever
Against the night, across the time
I'll be with you forever

I would like to reach the stars, please take my hands
Be my love, I'll be your god, open your eyes
A million miles, a million times, look around you
Beyond your dreams, beyond the stars, they're all for you

Always in front, the world behind
I'll be with you forever
Against the night, across the time
I'll be with you forever

Forever
Forever

I would like to reach the stars, please take my hands
Be my love, I'll be your god, open your eyes
A million miles, a million times, look around you
Beyond your dreams, beyond the stars, they're all for you
