

Stranger In The Night

Gestört aber Geil

Stranger in the night
You have saved my life
I fell in love tonight
With a stranger in the night

I was giving up
But then I stopped
Turned my back around to the club
And I was seeing all these faces

Then the music dropped
Beat was hot
You turned back around the shot
And I said something crazy

Stranger in the night
You have saved my life
I fell in love tonight
With a stranger in the night

When I see you sting
I start to think
How could I ever live without you
You were the missing piece. Yeah
'Cause you've got that thing
I'm hooked on you
In your eyes I found my meaning
With you there is no ceiling

Stranger in the night
You have saved my life
I fell in love tonight
With a stranger in the night

Stranger in the night

Stranger in the night
You have saved my life
I fell in love tonight
With a stranger in the night

Stranger in the night
