

# Tequila

Gestört aber GeiL

You used to come over  
Sneak in in the middle of the night  
I used to hold you every time  
Now it's October  
Haven't really been sleeping for a while  
And I'm rarely sober when we fight

'Cause I sit in a bar alone  
The same place that we used to go  
But it doesn't feel the same  
Oh, no  
It's Monday night and I'm drunk as hell  
And i pretend that I'm doing well  
But something else has changed

Everytime I drink tequila  
I remember, I miss you (Miss you)  
Forgot that every shot just makes me need ya  
Oh, it tasted better, better with you  
Tequila tasted better  
Tequila tasted better  
Tasted better with you  
Tequila tasted better  
Tequila tasted better  
Tasted better with you

(Tequila tasted better  
Tasted better with you)
