

5th & Spring

Get Set Go

She has assassinated her days
With the drugs that she's
been doing

And she's been lying to her friends

About the chemicals she's using

She's been taking everything

She's been using everything,

She's going to quit tomorrow,

But tonight she's in such pain.

[chorus]

Ah-ha.

She can't get to sleep,

She can't seem to wake,

She can't bear to live another day.

She can't get to sleep,

She can't seem to wake,

She can't bear to live another day.

Ah-ha.

She finds herself downtown,

On the corner of 5th & Spring,

She doesn't have any money,

But she'll do most anything.

She can take a lot of suffering,

She can swallow a lot of sorrow,

Well tonight she's in such pain,

But she's going to quit tomorrow.

[chorus]

Ah-ha.

She can't get to sleep,

She can't seem to wake,

She can't bear to live another day.

She can't get to sleep,

She can't seem to wake,

She can't bear to live another day.

Ah-ha.
