

Do Over

Get Set Go

The president's a liar
And the people're all stupid
And no one really gives a f**k
Everyone's a racist
Everybody is a liar
And everyone is playing rough
The world is all f**ked up, my friend
As bad as it's ever been
And some day soon
The world is gonna end and we'll begin again

The kids are all screwy
The economy's kablooie
And there's thieves at every turn
There's nobody that we can trust
And everyone is getting burned
The world is all f**ked up, my friend
As bad as it's ever been
And some day soon
The world is gonna end and we'll begin again

Do do do do do do dododododo do over
Do do do do do do dododododo do over

The kids are on drugs
The old are insane
And there's traffic on every street
Work is for assholes,
But everybody's working
Just to make ends meet
The world is all f**ked up, my friend
As bad as it's ever been
And some day soon
The world is gonna end and we'll begin again

Do do do do do do dododododo do over
Do do do do do do dododododo do over

The cops are corrupt
And the prisons are full
And the lawyers are crooked men
Gandhi's been shot
Jesus crucified
And Malcolm's been laid to rest
The world is all f**ked up, my friend
As bad as it's ever been
And some day soon
The world is gonna end and we'll begin again

I get by
Just like you
Grinding through the days
Drowning in my woes
And flaunting all my pain
The world is all f**ked up, my friend
As bad as it's ever been
And some day soon

The world is gonna end and we'll begin again

Do do do do do do dododododo do over

Do do do do do do dododododo do over

Do do do do do do dododododo do over

Do do do do do do dododododo do over
