

It Must Be Love

Get Set Go

I wanna die Everytime you look at some good looking guy
And I wanna puke
Everytime I see some guy looking at you
And I'm all tore up inside
I just wanna die
Please somebody won't you kill me
It's like death from above
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
In love, in love, in love, in love
(in loooooove, in looooooove)
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
You're sick of stayin' up till 3
And I'm wonderin' where you're at
when you're not with me
I call again
And your roommate says that you are out with a friend
And I'm all broke up again
At the thought of this friend
And the things that he's doing to you
It's like death from above
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
In love, in love, in love, in love
(in looooooove, in looooooove)
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
Oh, my darling
Let me f**k you
Cuz I will be the one that always loved you
Until the death of time
I've loooooooved
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love
I guess
I guess I must be falling in love

I guess
I guess I must be falling in love
In love.
