

Nothing Keeps Us Apart

Get Set Go

I know it's something when you tell me it's nothing
You say, 'I feel strange'
Light another cigarette, and I know
You remain far away.

[chorus]

You've been hurt, I know you're hurting, who's been
hurting you?

You've been hurt, I know you're hurting, who's been
hurting you?

I know you're lying when you say you're not crying
As we lay in the dark

I wanna say something but instead I say nothing
And nothing keeps us apart.

[chorus]

You've been hurt, I know you're hurting, who's been
hurting you?

You've been hurt, I know you're hurting, who's been
hurting you?

(All of my love cannot take your pain away)

You've been hurt, I know you're hurting, who's been
hurting you?

(All of my love cannot take your pain away)

You've been hurt, I know you're hurting, who's been
hurting you?

Let me sing you back to sleep, my darling.

Tomorrow is a better day.

Let me sing you back to sleep, my darling.

Tomorrow is a better day.

You've been hurt, I know you're hurting, who's been
hurting you?

You've been hurt, I know you're hurting, who's been
hurting you?

(All of my love cannot take your pain away)

You've been hurt, I know you're hurting, who's been
hurting you?

(All of my love cannot take your pain away)

You've been hurt, I know you're hurting, who's been
hurting you?
