

Absolute Sacrifice

Get The Shot

Nailed down, laid to waste
What's left of me?
Nothing but the pain of being thrown away

Sinking fast and draining my strenghts
In darkness I'll remain
Choke the life within
Embrace my fate

Just let the wolves in I'm done
I'm better off dead
Absorbed into oblivion
Suffer the descent

Every step's one closer to death
No light to chase
With the vultures standing at the gates

Trapped behind the enemy lines
It's pointless I resign
Final sacrifice
Forever night

Just let the wolves in I'm done
I'm better off dead
Absorbed into oblivion
Suffer the descent

Suffer the descent
Suffer the ending

For what I've done
I won't say sorry
Wish I was not born at all
Into this world of shit

Death is calling me
Death is calling me now

Just let the wolves in...
