

## Blind to Peace

### Get The Shot

Make no peace  
Make no peace  
Make no peace  
Bite the hand that feeds  
Refuse to comply with the oppressors  
Make no peace  
Crucify the sheep  
When you live a slave that's how you perish  
Make no peace  
Striking fear in the lair of the rats

Raised to bow, your freedom means nothing  
In this terror state nobody wins  
Spread the lie, keep sucking the venom  
Mindless flocks bred as tools of destruction  
And in spite of the blood on the walls  
You pledge there is nothing to be ashamed of

Fuck you spiritless cunt  
I see through your game  
You're not a victim, you smell death  
Your apathy shows what you're worth  
Final punishment for all the traitors

Make no peace  
Make no peace  
Make no peace  
Bite the hand that feeds  
Refuse to comply with the oppressors  
Make no peace  
Crucify the sheep  
When you live a slave that's how you perish  
Make no peace

Before you die you will know my name  
Well I guess you end up in the wrong place  
Before you die you will know my name  
Six feet underground is where you all deserve to be

I put my trust in no one  
May you all rest in torment  
I put my trust in no one  
May you all rest in torment  
Rest in torment

I put my trust in no one  
May you all rest in torment  
I put my trust in no one  
May you all rest in torment

I won't put my trust in your hands  
Rest in torment  
I won't put my trust in your hands  
Rest in torment
