

## Faith Reaper

### Get The Shot

Set me free  
Lay this cold weary soul to rest  
I struggled and I failed  
To find some peace in this mess  
While reason slept on its deathbed

Barely left alive  
Faithless mind not afraid to die  
I struggled and I failed  
To step away from your game  
But you won't see me fucking break

Anger kept me breathing  
In the end, you're all the same  
Vermin trapped in a life of shame

DEAD TO ME  
You're fucking dead to me

No repentance, no will to kneel  
Bottom feeders you're dead to me

So virtuous in your mind  
But in truth you're weak and blind  
I only breath to see you rot  
Faith reaper

No repentance, no will to kneel  
Bottom feeders you're dead to me

Forever cursing  
Forever loathing you
