

# Hellbringer

Get The Shot

Are we alive  
Or do we sleep till we fade to black?  
This worlds dragged by ignorants' bliss  
Resolved to bow and live a servile existence  
Forced down  
Blind and running  
One sadist nation unified under the flag of your lies  
Now we're locked in death's embrace  
Coldly waiting for infinite punishment  
Cause this time we're going straight to (Straight to)

Going to straight to hell (Straight to)  
I'll bring you scums down with me  
I'll see you straight to hell  
Going straight to hell (Straight to)  
No matter what you could say  
I'll bring you straight to hell

See the worlds crawling from the grave  
Feeding off common wisdom's remains  
When this rat hole goes up in flames  
I won't complain  
Death to oppressors  
I despise you mindless fear bringers  
Rest in pain  
Death to oppressors  
Your struggle is meant to fail  
Death to oppressors  
I refuse to live enslaved  
Death to oppressors  
May you rest in pain, may you rest in pain  
You fucking pricks (Straight to)

Going straight to hell (Straight to)  
I'll bring you scums down with me  
I'll bring you straight to hell (Straight to)  
Going straight to hell (Straight to)  
No matter what you could say  
I'll bring you straight to hell

We're going straight to  
No relief  
The blood spills from fascist pigs  
Before your ship even sank  
You were condemned (Straight to)  
Straight to hell  
You're all going straight to hell  
We're all going straight to hell  
We're all going straight to hell
