

## Nothing to Nothing

Get The Shot

Pity the coward's lies  
A nation founded on genocide  
Watching the bloodsheds spill  
Worship is death, brutality is God's will

Fed up with no way to last  
The future's dark and going nowhere fast  
Caged in and buried alive  
The rats are feeding, leaving nothing of you

Nothing, you live for nothing  
Suffer the cycle and drown in filth  
Nothing, you live for nothing  
Craving for meaning, you'll find misery

From lust, the leeches feast  
Deafening silence as the evil breeds  
Visions of mayhem arise  
The clock is ticking, leaving nothing for you

Nothing, you live for nothing  
Suffer the cycle and drown in filth  
Nothing, you live for nothing  
Craving for meaning, you'll find misery

Pretend to live like a lion  
But you will die as a dim sheep  
Nothing to nothing  
In thrall to undying suffering  
Nothing to nothing  
Condemned to burn 'til there's nothing remaining  
Nothing to nothing  
Humanity is its own worst enemy

No way to kill the pain  
No way to heal the hate  
No way to ease the bane  
No way to live
