

Scapegoat

Get The Shot

I should have seen it coming
The barren words, the poisoned regards
Still holding court from the lowest grade
You can blame me but it ain't gonna make me break

You can't shut me away

You asshole never loved, never lost, never raged
Who the fuck can live like this? Live like this
You never loved, never lost, never raged
Who the fuck can live like this? Live like this

You made this world a disease
A breeding ground for constant hatred
I no longer want to breath this air
My hope is all gone and I no longer care

You can't shut me away

You asshole never loved, never lost, never raged
Who the fuck can live like this? Live like this
You never loved, never lost, never raged
Who the fuck can live like this? Live like this

Who the fuck can live like this?
I'll take it out on you now

Bastard, pay the price
Bastard, say goodbye

Wreck your life
Give up the fight

Can't see the difference between
Between your kind and a WHORE
Can read deception between
Between the cracks of your pride

BASTARD
Suffer your dirty crimes
BASTARD
End your fucking life
