

## Season Of The Damned II

Get The Shot

No matter if we can get through  
These lonely times wrecked and ruined  
From peace and light I just grew apart  
Surrounded by the shadows of my mind

I was dead long before  
I was dead long before  
I was dead long before  
Long before

Time ago my life was full of promise and meaningful  
Along the way, I was ripped apart  
And strangled by the shadows of my mind

I was dead long before  
I was dead long before  
I was dead long before  
Long before

I was dead long before  
I was dead long before  
I was dead long before  
Long before
