

## We Are Ghosts

Get Well Soon

A happy science  
So why so sad?  
'Cause I thought you know  
We're always held

Through fire and lightning  
The occasional war  
And telling me that  
Your chest is sore

That's 'cause your soul's on fire

Boo-hoo-ooh, we are ghosts  
You? You are losing your religion  
Boo-hoo-ooh, we are ghosts  
We're haunting Europe  
And tomorrow the world  
An earthly died  
At a mystic feast  
We keep on falling

Detached the sun

Now light our lanterns  
Before moon  
Just keep waiting  
You'll be judged

Just 'cause your heart's an open book

Boo-hoo-ooh, we are ghosts  
You? You are losing your religion  
Boo-hoo-ooh, we are ghosts  
We're haunting Europe

Are we human  
Or are we dynamite?  
Are we human  
Or are we dynamite?

And God is dead  
And God is dead  
And God is dead  
And God is dead
