

Part of Me

Getter

Get lost in my heart with you
With every little thing you do
But you left me outside
Now I'll drink and I'll drive
If this is what you want
A part of me apart of you
Guess I lost you through and through

It's my fault that's what you said
It's my fault that's what you said
A part of me apart of you
It's my fault that's what you said
It's my fault that's what you said
A part of me apart of you

Get lost in my heart with you

Love breaks down
Love breaks down
Love breaks down
Love breaks down

Get lost in my heart with you

Love breaks down
Love breaks down
Love breaks down
Love breaks down
