When things are dazzling, shining
Feels like I'm having a good dream
Make a prettier pose
Mysterious questions that pop up
Days where everything feel strange
When my face frowns from the feeling
Everything will pass
The warm sunlight and the eyes that comfort me
Make me get up once again

Slightly smile,
Smile, click, I like the sound of the shutter
Look at me,
Smile, you can forget about this moment
One two, once more
Smile, smile a little bigger
So my heart can become sweett

When I feel like I'm alone
When I'm so tired, I feel like I'm powerless
In a clear landscape,
The wind coolly passes by
Smiles bloom in the middle of the blue ocean
Will you hold my hand?

Slightly smile,
Smile, click, I like the sound of the shutter
Look at me,
Smile, you can forget about this moment
One two, once more
Smile, smile a little bigger
So my heart can become sweet

Here I go I wanna go, jump high
To the crisp melody, blow a whistle, let's go
When things are dazzling, shining
Feels like I'm having a good dream
Make a prettier pose

I wanna be happier
So I went see this picture in the future
I can smile even more, no one can replace me

Slightly smile,
Smile, you can say kimchi or cheese
Look at me,
Smile, you can enjoy this moment more
One two, once more
Smile, you can laugh out loud
So my heart can be happier

Here I go I wanna go, jump high
To the crisp melody, blow a whistle, let's go
When things are dazzling, shining
Feels like I'm having a good dream
Make a prettier pose
