Unfurling Singing star
Will you hear it?

Time is at a standstill

Standing on this road
Can't believe it yet
I took it all for granted

I saw just like you
I wandered just like you, Why
Does my heart fall apart?

Even the wind
Pauses waiting for you still
Even the fluttering starlight
Lingering on

No, everything is still filled with you
I still can't go anywhere
Even if you pass me by
I will find you
Then I'll reach out again to you

Unfurling Singing star
Will it reach you?
Sparkling Shining star
Will you see it too?

Maybe this song
Will take me to you once again
I know so, wait, calm down
I don't know anything

Lost in longing
I'm standing still
Going back and forth
Lingering on

No, everything is still filled with you
I still can't go anywhere
Even if you pass me by
I will find you
Then I'll reach out again to you

How far have you drifted?
Guide to the sky

Whichever road I take, they all turn into you
Someday you will know it too
I'll run toward the starlight
I'll remember you
Then I'll reach out again to you

Unfurling Singing star
Will it reach you?
Sparkling Shining star
Will you see it too?
