My boy, I opened the window to the dazzling sunlight
As I greeted the nice wind
Your eyes smile when you see me
My day is a sweet and perfect day
(Oh my god love my boy)
In a world, only for you and me
On a small island, it's just you and me
The twinkling moonlight and starlight are enough for us

Kiss me baby, it's the moment I've waited for
Whoever sees us, I don't care
What a feeling, fly high like a plane
(Welcome to the Neverland)
Past the sky, fly away (oh)
Close your eyes wherever the wind takes you (yes) oh
(Love love) with you, this is Neverland

Your eyes are like the blue sky
Brighter than sunshine, it shines even more

(Oh my god love my boy)
In a world, only for you and me

My love, you alone make me perfect
The twinkling moonlight and starlight are enough for us

Kiss me baby, it's the moment I've waited for
Whoever sees us, I don't care
What a feeling, fly high like a plane
(Welcome to the Neverland)
Past the sky, fly away (oh)

Every day, I love you more
Now I finally know (oh my love)
Forever like the sunlight that embraces us
Will you be with me?

Even your smallest expressions and words are lovable
My heart softly shakes and tickles
(Ah) I love you oh baby
If you feel the same way

Kiss me baby, it's the moment I've waited for
Whoever sees us, I don't care
What a feeling, fly high like a plane
(Welcome to the Neverland)
Past the sky, fly away (oh)
Close your eyes wherever the wind takes you (yes) oh
(Love love) with you, this is Neverland
