

# Caution

Ghetts

You waited for some hand and help  
I played the hand I was dealt (facts)  
You come from a family of wealth  
I had to grab it myself (facts)  
I earned all three of those trophies  
On mum's front room cabinet shelf  
In economy thinking about first class  
'Cause I ain't your average male  
Reppin and your man did well  
Rules have to bend if plan B failed  
Them boy they say they want smoke  
We puff, puff, give and we hand them L's  
All I'm saying, you'll hear "Caution" playing  
When you the size of the corn I'm spraying  
I tell man "put that away"  
Like "brother, it's cool, I'm paying"  
Killed off Kaleem last night and slept like a baby  
Had an awesome lay-in  
Normal day in the life of a skengman  
If they mourn, it's an AM (My lord)  
I bear God to be stable  
Till when I went force and praying, protected by angels  
My aura's Super Saiyan, If I project my energy into a crowd  
It will end of me causing mayhem  
You go in but I go all the way in  
There's no way back from here  
Core fan base, we go back some years  
Reload that one there  
Core fan base, we go back some years  
We know stats, we know platinum's rare  
But if anyone deserves that, it must be the boy  
That Deebo'd the atmosphere  
Look how many tracks I've murdered  
When it comes to the features, man are going on like  
Kim Kardashian's plastic surgeon  
This all happens when man spits verses  
Since I been bad man have been nervous  
Running this tempo, calorie burning  
My bars are like scriptures, Saturday service  
My brothers and sisters, welcome to service  
You ain't gotta be Muslims or Christians, to believe or worship  
I gotta testify, I wish brothers more life  
And the same on brothers who want to see an end of mine  
I been praying every day, there's a big.45 on a friend of mine  
I cannot control what other men decide  
As long as they don't affect how I spend my time, then its fine  
Pay the bills, don't pay no mind  
God is good, God is great  
From the hood, from the States  
Probably stood face to face  
When I was on Pay As U Go, I gave my heart to the club  
So man had to hail up major ace
