Everybody want fi know  
Where she get the body from  
Mind body and soul  
But the body strong  
Had anybody ever seen a body everybody want  
Browning with the short hair but her money long

I'm living life 'cause niggas died don't deserve to  
I was nearly hypnotized by her perfume  
How a nigga buy you food then desert you  
Baby, when you're crying who you turn to

Jamaican boy I'm in my Ghana mode  
It's G H I'm a rich nigga with a heart of gold  
Six figures on the car alone  
Me and you deep convo in the car alone

If I only had three wishes  
I'd wish for you  
Then give you two  
And if I only had three women I'd ditch the two  
Just for you

Brains and beauty I'm talking aesthetically  
And I'm talking academically  
Baby, are we just friends or more than that  
Potentially I'm at the point where I'm calling accidentally

She fresh out of separation  
I haven't beat 'cause she worried about her reputation  
See me I respect the preservation  
That's why I don't say too much  
It's meditation

You're the only one I'm serenading  
So when I see your birthday suit I'm celebrating  
You're the only one I'm putting on a pedestal  
You're the only trophy I'm levitating

I watch the sunset then I watch you undress  
I only recognize truth when it's naked  
And if my baby want a baby then baby  
I can pay the penalty of penetration

Special type of loving I give it to you any time you want
