Grime Daily

Ghetts

I grime daily
My lyric book's my baby
They can't say I'm lazy
Man say they run this ting
But ain't done grime lately
Not for a while
I grime daily
24/7, trust me
I grime daily, 365

I like Bashment, I like Jungle
I like electro but I love Grime
I like Dubstep, I like Sublow
I like Bassline but I love Grime
I like Rap, I like Garage
I like House but I love Grime
I like Soul, I like Rock
I like Jazz but I love Grime

I see everyone acting like they weren't in love with the music eskimo times
Rumble times and that
Yeah man I'm still waving the flag

I'm a grime kid
I might conquer another genre
I'm fonder
But there ain't nothing like this
From my homper stomper
It's got a lot stronger
But Logan's still working the night shift
We all came from the bottom no sponsor
Independent from the entrance
Grime is jungle, '96
Garage in '99
And I'm ready to rumble
Me and my clique
MCs can't stand me
I'm antisocial when I'm angry
I'm the guy with the shotgun in Jumanji
No fair when I enter a stampede
I was doing these things from when DeJa was ran by Randy
So the bars are sharp like a Stanley
Overstand me

I like Bashment, I like Jungle
I like electro but I love Grime
I like Dubstep, I like Sublow
I like Bassline but I love Grime
I like Rap, I like Garage
I like House but I love Grime
I like Soul, I like Rock
I like Jazz but I love

I'm a grime artist and I'm proud of it
I ain't one of the man that are doubting it
I love the sound of it
That rapid percussion

Nocturnal strings
Lewi White baseline
Maniac melody
I'd rather that than a beat from Alchemist
So don't ask what genre my album is
I've be blessed on the buttons
I might get another one in the charts
You think man are calling them blessed for nothing, nah
This harddrive's got a thousand hits
And guess what, Zdot's the next stop
So man are giving him a shout for dis
And I might grenade, be Wiley made
When it comes to grime I be highly trained
I should have been on the first Pow!
But it's way to late for complaints
And I make a lot of MCs feel like they're leveling, yeah
I could take Usain in a race
How is it these
Counterfeit G's
Think that they can leave me powerless, please
Don't make me twin tower this scene
I tell an MC carry on sending
You'll see there ain't a coward in me

I like Bashment, I like Jungle
I like electro but I love Grime
I like Dubstep, I like Sublow
I like Bassline but I love Grime
I like Rap, I like Garage
I like House but I love Grime
I like Soul, I like Rock
I like Jazz but I love Grime

Hold tight everyone part of the grime wave, let's make it happen, dun know.
Grime. Big up Silencer, big up Kid D, big up Silvano

I'm a grime man
Part of a grime a gang
They think grime can't
I think grime can
I know a lot of clubs in the country
Where they won't play grime
In there, grime's banned
Grime's alive
As long as I am
Mic in my right hand
No mic stand
Write like stan
Till my mind's blank
A spy cam couldn't clock my plan
