

Mine

Ghetts

Just FaceTimed one badders looked her dead in the eyeball
Said I'm on the way man need head on arrival
I know you've been messaging Michael
But I'll never be spiteful

Long time no see
And it's definitely my fault
Just posted a pic on some lemme remind you
You don't wanna admit you still want let me inside you
You know you've been missed when the text says hey big head
Who are you with withhold information unless they're with it
I ain't seen you in a minute
I would have shown you my album before
But now you can't get a preview 'til it's finished
I love seeing you in the flesh will definitely
Come and meet you in the spirit
Arms open you've been around since heartbroken
You want a cup of tea too don't spill it
We used to watch free view and bill it

They wanna do Netflix and chill
We wanna do get rich and build
You carry on watching the stocks
While them girl are watching man's Richard Mille

Different still Gucci don't mean loads of gwop
I still ain't been no Novikov
But six zeros are different mill

Come see me like you don't wanna
Come see me but you don't wanna
Come see me when it's yours
I'm knee-deep put it down when you
Come see me why you don't wanna
Come see me when it's yours
It's it's mine
It's it's mine
It's it's mine
It's it's mine

Who's hot
Who's not
Who walks in the shop and choose a new drop
Who pull up in the summer time with the roof off
Who used to hide money in the Nike shoe box
Who used to get sent shop with the coupons
Now the gyal wanna know where I get the coupes from

Who's got coutts account but soon gone
Who sponsor the lips the batty and boob job
I got old-school tings with landlines
I got new-school tings on hold
I got man's favorite model on stand-by
But my usual tings on loan

Man had a plan that backfired
Now I got beautiful tings on smoke

I said some see me
I ain't usually in but I'm home

Come see me like you don't wanna
Come see me but you don't wanna
Come see me when it's yours
I'm knee-deep put it down when you
Come see me why you don't wanna
Come see me when it's yours
It's it's mine
It's it's mine
It's it's mine
It's it's mine
