

# Red Pill

Ghetts

I ain't got tats on my skin  
But I got scars from the scraps I've been in  
At least a glass in my hand when I swing  
Wanna take me apart & dismantle my limbs  
Your drunk you can't handle your drink  
A lot of men put their lives on the line  
Only God knows what these gamblers think  
Sometimes I'm surprised I'm alive  
My lucks bad I'm a jinx  
I don't wanna risk my life its worth more  
At least I never had to fight a turf war  
Living in a place where crime occurs more  
Man are like yo I just buss mine  
So its only right you burst yours  
I'm a leader not a follower  
I'm a need at least a reason to body ya  
In defense or its me with the coroner  
Jesus Christ  
I'm tryna walk on a righteous path  
Anybody that knows me well would tell you I don't wanna write violent bars  
And anybody that knows me well would tell you 'my mans got a diamond heart'  
Plus I'm getting older and wiser darg  
I analyse my life to find myself  
Body, spirit, soul, mind apart  
But expect that  
Some of the old fans won't respect that  
But I'm a grown man (grown man una)  
And I'll be damned if my music now don't reflect that  
I ain't one of these new wave dons  
I don't wanna be the hardest out  
Nowadays I'm influenced by lupe' songs  
Substance in abundance  
And if you wondered what I'm gonna come with next  
Probably won't appeal to some younger's  
See I know what they wanna hear  
They wanna hear me say to an MC  
Suck ya mum and she's got Gonorrhea!  
But I'm way too deep for that  
I'm one of these people that don't believe the crap the media been feeding m  
an  
I got a feeling fam  
So I'm digging in deeper than  
A rassclart preacher can  
Most of the worlds plugged into the Matrix  
How do you know  
I took the red pill  
Now I'm accustomed to the basics  
Screaming knowledge is power  
Open the book knowledge is ours  
Now I can have an argument in Parliament with them when its politics hour  
They say run man a David Blaine them man are on a next frequency  
But if you ain't got an open mind  
You can watch and not even see  
My mother used to tell me frequently  
Young blood know where you come from  
Yes the subjects deep indeed  
I know where I come from know where I'm heading

Outsiders get air when they're breadin  
I don't need your approval  
I don't care is what I tell em  
I'm just being truthful  
This here's in my denims  
Before you could search google  
I had a career so F' em  
Until its my funeral  
Ima be right here selling  
I ain't the usual  
Are you aware I'm a peasant

But I got ambition nigga  
So I see the bigger picture  
And I can't see competition  
Unless its in the mirror  
Ambition nigga  
So I see the bigger picture  
And I can't see competition  
Unless its in the mirror

Let me tell you what my repertoire is  
Life and the drama  
I thank God that I got a strong partner  
One day its like I'm living in a beach house  
Next day its like I'm living in the Gaza  
State of mind gotta take my time with it though  
Tell myself there ain't much time till I blow  
When I blow you won't see me all icy ya know  
Wrist already pricey I'll tell you what I see you know  
Living in a country when IC3 ain't as important as IC1  
They wan like only blacks have 3 8's  
And the white man can never have one  
What happened to equality  
The Governments fucking up the economy I never talk Politics  
Usually swerve the controversy  
I wan talk real life Monopoly  
Imagine if Jack was Jill  
And Humpty was Dorothy what I'm just saying we don't know what's real  
We're all programmed still  
Let me leave that  
Jump in the Merc and lean back  
Pump some wale on a deep track  
That's why they're gonna love me for my ambition  
No matter the position  
Tatt's all on my arms if I'm getting married I ain't getting a prenup  
Kilo grams I kill it with Cheese Skunk  
Phone anybody else for the cheese  
My girls got an Ora no Rita  
These other girls never level on a meter  
But I might beat her  
Really I need to see a preacher or pastor  
Forgive me father  
For committing adultery  
I just wanted to ball like parker  
Hurting those that are close to me  
Mum don't approve of the work trade  
Early hours of the morning in the work place  
Just me, Tanita and a suitcase  
Bags of reeфа let the room haze  
Tell my woman I'll be back in a few days  
I never hear you moan when I'm buying shit  
I don't wanna hear you moan when I'm grinding

Wanna know why I'm always smiling  
Cause I got a hollywood smile prick  
Can't miss me in any picture I'm in  
I don't wanna hear a pussyhole hyping  
If he ain't straight outline him  
More time I'm on a vibes ting  
Ghetts pulled me up about light-skin  
Said Merc's brudda watch what your writing  
Take a watch of this DVD  
I heard say you never wanna listen this  
You affe take in these frequencies  
Don't be lost in the Belly of the Beast  
Knowledge is food feast  
I got ambition  
I got ambition  
See what car I'm whipping  
Ambition  
I got ambition  
See what car I'm whipping  
Fuck all of these women  
I got ambition
