

## Red Stripe

Ghetts

I ain't never killed anybody but I wanted to  
I love the ends but I wanna move  
I used to plug the peng like a lot of youts  
I was in the bing as young as Ben and I can promise you  
I was so hungry then I would've robbed a pot of food  
Now I'm in a squad full of money men  
Artists, footballers and shotters too  
And all you niggas outside  
I'm a circle of associates  
Don't act like you know me  
Because none of you are close for Ghetts  
Don't fuck with me  
I can run your whole team with a broken leg  
And when it comes to these ladies  
I ain't the type to wanna stay the night  
But let's have a look and see  
Clitoris can change my mind  
I'm a player but a nigga just may resign  
I've been through so many shit, it's just a waste of time  
Plus, when did I become the nigga  
That these bitches wanna lay aside?  
One sec, let me think about it  
I remember when I started getting attention  
From the lighties that I met at shows  
Wishing it would never end  
I like her the most but I still get to know the rest of them  
I'm a greedy bastard, taking advantage of the stardom  
I can't believe my luck  
How the fuck did I break out the system?  
Now the screws are watching me erupt  
And the police? Fuck 'em too  
They don't wanna see me buss nothing but a strap but it's cool  
Because that's something I can make a youngen do  
I love life, so, I live it out cautious  
You? You want the name and the fame  
But nobody knows the nigga giving out the orders  
I can see you got hot  
So, I don't know why you're sticking around them fraudsters  
Come run with us  
You remind me of Dangles out of Shottas  
[?] shot ain't handling you right  
Give me inside info  
And we'll swing by his home  
Like we got a warrant to be in there  
This is our town, we gave you foreigners a big share  
It's ours now, we don't burrow shit, it's clear
