First degree murder
Burner v. burner
No limit, my nigga
Word to C Murda
One against five guys
Right now, I could murk a beefburger
Man can't open me up
I'm a surgery swerver
Rolling one up
Herbs are my turn up
Yo, man have got the Afghan
I'm gonna burn [?]
Meet me in the middle of East
And I ain't talking a journey to Persia
She was like "that's down the road"
I was like "yeah? I heard it was further"

Run up your mouth
Man up, you mouse
Panicking now, they say they got guns
But they don't ever have 'em around
Where is the loud?
I need to blaze
My nigga's on trial
Serious case

What is it?
I've got the venom he ain't got in him
I've got the weapon, he ain't got a ting
Somebody tell 'em I've got a dot on him
Man down
My niggas do drive-by shootings
Last drive-by shooting, they span round
I only get in whips that are blacked out
11pm, my niggas pull up in a black BM
Blacked out so you can't see in
And it'll be way too late by the time you see the handout

Bullet for every one of them niggas in the background
Guilty by association
I roll on a pagan
Pussyhole, mind who you hang round
Bullet holes in a man's frown

Run up your mouth
Man up, you mouse
Panicking now, they say they got guns
But they don't ever have 'em around
Where is the loud?
I need to blaze
My nigga's on trial
