

Threats

Ghetts

I don't take threats lightly
Don't think Ghetts might be a prick for a second
I stick with a weapon
Make man think "shit." when I get them
I'm in the bits with the felons
I wear fully equipped
I got my bally rolled up like say it's a woolly hat
You ain't a big man bully in this
I'm fully a risk to anyone around
Everyone of them drown, I'm pulling a stick
Who said I'd be soon dead?
Remind yourselves, I'm live and well, you tried, you failed
I stab man in the chest this time I quickly lose breath
I heard I'm a dead man walking
It's nothing important, they ain't talking me
I'ma run up on a man and blaze him in his face
Take his possessions, now I got a dead man's fortune
When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Red in my eyes I'm like Mike when he's mad
I'll bite in a fight, stick a knife in the abs
I got the 9 in the man bag
Cost me a bag of sand
You ain't badder than the man I am
I make niggas move on the same day like they're living in a caravan
I kill them with the Magnum, there could be a bag of them
But one of me's like 20 of them
SO
Show me the one with the biggest mouth
I'll take this nigga out, swing the stick around
Be better now, you don't know a bit about me
I'm rowdy, I'll run up in your county
And run away with the cats like I'm Alfie proudly

When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored

When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored

I been barring again
Man just gonna start parring again
So many MCs biting my content
Please don't ask why I'm starting again
What? Me haffe start warring again
Who be the best they're asking again
Me be better than you lol
Now I'm back with the bars who's laughing again
That's why I ain't sparring again

Tell a boy once, don't warn him again
Told you before that it's not just bars
Now it's hungry season, I'm starving again
Think that you're fire, start sparking again
Showerman time, not bathing again
Gave you the ball, had a chance for a shot
Now it's back in my court, I ain't passing again
Like, like some man are biting again
Don't realise what they're writing again
Man wanna copy the shit that I write
Now it's got Griminal on a hype ting again
One or two guys I ain't liking again
Jammer don't want me to start writing again
You're not heavy
Marcus banged you already
What? Wanna fight him again?
Bitch boy when I start writing again
Man's gonna shit like I'm slicing again
Watch how I piss on the bass and the treble
Money's little, I'm rising again
See, see, now I'm wilding again
Don't wanna hear Double O rhyming again
What the rasscleet
My men are N.A.S.T.Y
Nobody ask who I'm in again!

When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored

When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored

No matter how many threats
I've never been wet
None of you guys have stepped to me yet
Can't step to me, step to B
I'll be on my ones, I'll step to three
Who's telling you lies?
You need to revise before you're testing me
And there's no cheat, I can't be beat
All cause I invest in keys
All cause I invest in drugs
This boy will be requesting blood
Just tempt me, I'll press 10 G
Next thing you'll be dressed in slugs
Or you might get undressed and plugged
It depends how much I spend
I'm a MC but I was born a thug
Fuck threatening me I warned you cause!

When threats are made I'll get my blade
Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored

When threats are made I'll get my blade

Head for the door
Head for the war
I don't wanna see nothing but heads on the floor
Just know none of your threats are ignored
