

## U & Me

Ghetts

Yeah...  
G-H... 32... Skywalker  
Yeah... Movement!  
Uh huh powerful man

To the graveyard straight from the sandpit  
To the first time we was both on the same charge  
I'm the reason why you ain't scarred  
I got your back and we ain't even from the same block of flats  
Two of a kind, my brother from another mother  
Nevertheless we love each other  
I still remember when we stuck up Bubba  
He came back shouting "motherfucker"!  
We stood our ground because of pride we never done a runner  
So we took a beating, and never looked appealing  
But what a friend is, I finally understood the meaning  
On the grind together  
From the worst to the finest weather  
We had plans but we was minus cheddar  
Money over bitches I ain't never said vagina's better  
Find a treasure, that's a finer pleasure, never wife a heffer  
I thought that we would shine forever  
But we was both wrong and I was like "hold on"  
"Where's the money, the bitches, whips and clothes gone"!?  
And then I realised it's all about the being white  
A key of each just might be the key to life  
I'm trying keep discreet cause the police are hype  
I'll keep it cheeks 'til the fiends arrive  
Keep the peace for a peace of mind  
A piece of yours is a piece of mine  
A piece of mine is a piece of yours  
When you're parents kicked you out  
You never had to sleep on floors

You and me, we can make it last  
You and me must forget the past

Family tree we been dogs since the hush puppy days  
We run around with sluts from the way  
I'll never see you get thumped in your face  
But still we been accustomed to pain  
I remember when you're pops past away  
I come past for days, the memories circle my brain  
I remember when you earnt off an eighth  
And first copped your chain  
Now, how many O's later  
Just count how many hoes rate us  
We'll forever hold status  
And know that I mean this  
I'm a father of 1, you got 2 so let's just say I got 3 kids  
Christmases and birthdays they'll receive gifts  
I'm picturing your girl saying "daddy we miss"  
You living in a cell life's a peak bitch  
True... so we ain't never slept with her  
Had a plan for the grams and you said "we'll be richer"  
But now you're gone, I'm depressed in peace nigga

You and me, we can make it last  
You and me must forget the past

Truthfully you and me? Didn't used to see eye to eye  
But when your mum past away we put our differences aside  
And I got to know France better  
Way before the trips up the country in harsh weather  
80 on the clock with like 80 of them shots  
Coming back around sunrise  
Back when I used to cop the weight and couldn't cut it up  
Carmen Room's the first rave that I fucked it up  
First caught a case and had the luck to bust  
You introduced me to Melissa and Camdy  
Check the link in our family  
Going back to like Melvin and Boisey  
Vernon and Floyd, when they gave birth to the boys  
It ended up as little baller and Scorcher  
I remember when you left the ends  
You was like 100 miles out  
And you still came back just to check for friends  
[?] and Joe, you even dropped P's on my girl  
And I swear that's why me and you are best of friends!
