Ghetts

It's J. Clarke  
I break hearts  
This song's dedicated to the women that don't understand  
Dun know  
I'm like  
Yeah

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand

At first, it was sweet  
I never had to put my phone on the street  
Now she looking through my phone in my sleep  
So I told her to leave  
When she rose to her feet  
Got a slap for what she chose to delete  
(Understand) that I molded her  
I call her stellar because I pop back the soul in her  
And I'm the tug that put the road in her  
Now there's no controlling her  
(Understand) I threw the rock  
I told her, "baby, don't loosen up"  
She turned around and said  
"For you, boo, I could never do enough"  
Now the mind's too corrupt  
I guess I abused the trust  
But at the same time, I changed lines  
Due to sluts  
(Understand) the things we do for love  
Dream I used to fuck to my tings, abuse then cut  
That's why I know what super drugs do to shove

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand

I will admit I'm wrong  
So I writ this song  
Sometimes I feel like I ain't gonna live for long  
I'm looking at my chick  
And she's pissed and she missed the prom  
I asked her, "what's wrong?"  
"Why you screaming like Little John?"  
(Understand) she said I never take her out

And there ain't a doubt, I played about  
But I love her more than when I make the crowd wave and shout  
"Take it down"  
(Understand) I'm on the paper chase  
So, when I'm 25, I ain't waste  
Recognise I'm raise the states  
You can never get a guy to take my place  
I ain't even changed a night, I stayed the same  
Even though many times, I've made mistakes  
Let me try erase the pain  
(Understand) I'm as stubborn as a mule  
Stuck in my ways and now I'm tugging till I'm gone  
Duckling chicks like I sire, I'm a live wire  
And you ain't gotta profit in the roads

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand

Communication is the key  
So, when we don't communicate, she don't wanna eat  
And I can see she's losing weight  
She's bitter because I hit her  
But I swear I've never bruised the face  
We [?], but that's my nigga  
She's forever true to [?]  
(Understand) I'm really trying to make it work  
Because deep down, I know there ain't another day on Earth  
That can take the place either with the same plate, I burst  
This spoon cannot be be broken, always  
Songs are telling me how my love is stronger than a Shogun  
And never will it ever be no longer in the open  
Before you, I had girls from Romford to [?]  
And now it's just you and me  
Conquering opponents  
(Understand) the way I think  
I love a woman that can take a hint, stay in the lane  
She's my wife but how long can she stay convinced?

Understand  
(Hard to explain but you just don't) Understand  
(I can change but I just won't) Understand  
(I need to explain what you just saw) Understand
