

Dolly Fisher

Ghinzu

Guess what we've brought you now for christmas
We thought about a special gift
Her name is Dolly, Dolly Fisher
She's a kind of voodoo doll

Break the coffin, she's inside
Press the button, she walks
Whatever you write... Wherever you are I tell you to run,
tell you to smile

Come to me and bleed the pain, right on my face, I don't
no how far? How right?
One "go"...

Guess what she asks you now for dinner
She thought about a special gift
Lay down, pray high, turn off the light.
I'll teach and reach your f**king soul
I'm a kind of voodoo doll

Break the coffin, she's inside
Press the button, she walks
Whenever your name comes into mine
Whenever it's crowded
I tell you to run
