

## Take It Easy

Ghinzu

Steady sister, little sister, little sister won't you try  
To turn me into someone different when you're standing by my side  
I know the road is long, guess you took me for a ride  
Little sister don't you try

Cause I see your eyes are crying molten mascara tears  
As you keep waiting for something, well it's something I should tell you  
How much I love you  
You can't hear a damn  
Your fucking radio's too loud

Take it easy  
You're going to love me  
No need to change me cause nothing's gonna save me  
You can't always try to get me  
I give you one, you give me more  
I give you something that you always wanted  
Take it easy, and let it go

Steady sister, little sister, little sister won't you please  
Get your stilettos off my throat so maybe baby I can breathe  
I forgot your name, I forgot the safety word  
Little sister it's absurd

Take it easy  
You're going to love me  
No need to change me cause nothing's gonna save me  
You can't always try to get me  
I give you one, you give me more  
You give me something baby that you have always wanted  
Take it easy, and let it go

Chase through everything we've done  
Stay, darling come to me  
All the way let's run for all that has to come

Take it easy  
You're going to love me  
Take it easy cause nothing's gonna break me  
Baby love me, like I love you  
I give you one, you give me more  
Come baby, and give me some more  
Take it easy, and let it go
