

'til you faint

Ghinzu

I'm making love, making love, making love to you
I'm making love, making love, making love to you
Until you faint

I'm making love, making love, making love to you
I'm making love, making love, making love to you
Until you faint, yeah
I'm making love, making love, making love to you
I'm making love, making love, making love to you

I'm making love, making love, making love to you
I'm making love, making love, making love to you
I'm making love, making love, making love to you
I'm making love, making love, making love to you
I'm making love, making love, making love to you
I'm making love, making love, making love to you
