

# Cenotaph

## Ghost

At the top of the mountain  
Right there where it tips and connects with the night sky  
Reach it with me  
In the grave of the ocean  
Right there where it dips and connects with the fire  
Burning with me

The ashes of memories  
Buried  
Are blowing  
Blowing in the wind

Through the sensations  
On through the storms  
Like you used to be  
Wherever I go  
You're always there  
Riding next to me

At the heart of the city  
Right there where it glows and explodes into colour  
Devour with me  
In the heat of the moment  
Right here where it feels like I'm actually living  
You are with me

The ashes of memories  
Buried  
Are blowing  
Blowing in the wind

Through the sensations  
On through the storms  
Like you used to be  
Wherever I go  
You're always there  
Riding next to me

Wherever I go  
You're always there  
Riding next to me

Through the sensations  
On through the storms  
Like you used to be  
Wherever I go  
You're always there  
Riding next to me

To me  
Next to me  
Next to me
