

You run your fingers through my hair  
I'm touching every inch of your skin  
The comfort is enough to save us

If the ocean's arms wrap around me  
I'll see you on the shore  
Grab my hand before the water comes to  
Wash me away, wash me away  
I'd sink to the bottom if that could save you  
For the gift that you have given  
Your love has come to  
Wash me away, wash me away

Every word  
Evermore, evermore, oh  
Every word  
Evermore, evermore, oh  
Evermore, evermore, oh

If the ocean's arms wrap around me  
I'll see you on the shore  
Grab my hand before the water comes to  
Wash me away, wash me away  
I'd sink to the bottom if that could save you  
I'll miss your salted skin  
Your love has come to  
Wash me away, wash me away

Every word  
Evermore, evermore, oh  
Every word  
Evermore, evermore, oh

Infinite beauty, immortalized in history  
Infinite beauty, you save me from  
From these dark waters, from this dark world

(Woah, woah, ooh, woah)  
(Woah, woah, ooh, woah)

If the ocean's arms wrap around me  
I'll see you on the shore  
Grab my hand before the water comes to  
Wash me away, wash me away  
I'd sink to the bottom if that could save you  
I'll miss your salted skin  
Your love has come to  
Wash me away

If you're void of answers and your soul has become lost  
I will save you, I will carry you away, away  
If you're void of a balance, before you stumble and you fall  
I will catch you, forever sing your name (Name)

If you're void of answers and your soul has become lost  
I will save you, I will carry you away
