

Away and Here

Ghost Brigade

How sick you ever wanna be
Able to see the light
Suffer boy leash won't break
How hard you try

Helplessly tilt the time for me
Can you help this only for me

Walls around you grow taller
Hard to keep em
Heaven beside you bargain with
Buy yourself your own kingdom

Helplessly tilt the time for me
Can you help this only for me
First to find
It's hard to be

Lightning for
Lack of regret wakes me
