

## **Stones and Pillars**

**Ghost Brigade**

Crawl my way through growl and crust  
The hardest job I've ever had  
Your heart is heavy but so is mine  
As I swore to you once you're never gonna walk alone

Placing this image of a man  
In between stones and pillars  
Deep in the shadows  
Armed and protected from curious eyes

I'll keep walking till my feet give out  
Any my veins are dry like that wishing well  
I still have purpose  
One task to do  
It's like wandering without a compass  
But I'm still searching for you

Misery  
It is our curse  
Desperation  
Feels like drowning in shallow waters  
In between stones and pillars

Found some burned wood and six rusty nails  
Somehow I knew exactly what I'm supposed to do  
Building this monument for us to remember  
What was it like when there was peace

Misery  
It is our curse  
Desperation  
Feels like drowning in shallow waters  
Misery  
It is our curse  
Desperation
