

Live Free or Die

Ghost Mice

Maybe I'm not being realistic when I say
Everyone should quit their jobs
And everyone should be their own boss
And make a living by doing the things they love
And maybe I'm not being realistic
When I say you don't need to go to school
There's nothing they can offer you
You can't find for free in the library

But I'm my own boss
And I do what I want and what I love
And maybe I am wrong
Well then
Let it be
Let it be
Let it be the death of me
Let it be the death of me

Maybe I'm not being realistic when I say
We should make our own movies
Write the books that our friends read
And live our lives without TV
Maybe I'm not being realistic when I say
We should learn to grow our food
Make our own clothing too
And build a home and plant some roots

But I believe in you
And you believe in me
And maybe I am wrong
Well then
Let it be
Let it be
Let it be the death of me
Let it be the death of me
