

Heart Attack

Ghost of the Robot

You make me want to
Live your life
I can't stop to think
Of mine
Now who
Wants to be true
When there's no you
For the next four
Four years now

Now I, I must stop holding back
My heart's about to attack
'Cause you speed up things that should last

You, you make me want to
You know I want you
Oh you, you make me want to
You know I want you
You know I want you, ohh-oh-oh-ho

I don't want to extrude
Your point of view
But your words stay clear
While mine disappear
To be there for you
I had to lose what's left of my mine
You don't mind

I must stop holding back
My heart's about to attack
'Cause you speed up things that should last

You, you make me want to
You know I want you
You, you make me want to
You know I want you
You know I want you, ohh-oh-oh-ho

Now I, I must stop holding back
My heart's about to attack
'Cause you speed up things that should last

'Cause you, you make me want to
You know I want you
You, you make me want to
You know I want you
'Cause you, you make me want to
You know I want you
'Cause you, you make me want to
You know I want you
You know I want you, ohh-oh-oh-ho

This is the part where you're supposed to say "Now all we need are sleighbells"
