## Ghost of the Robot

Down, I'm falling down  
Want you to catch me  
But you're not here around

If you'd come around  
I know you could save me  
With the touch of your soft hand

You, it's always been you  
Even before I met you  
I was in love with you

And I, I can't see why  
I couldn't spend all of my time  
By your side

I, I know I hurt you  
Even desert you  
I'm awful

But I, I heard you crying  
Feeling like dying  
You deserve better than me

In, I let you in  
But now I'm so scared  
I wanna run away

And too, what do we do  
I'm old twice your age  
But I'm in love with you

When we are together  
I'm light as a feather  
It's so good

But you, you are in school again  
Breaking the rules again  
And me, I'm on...

I'm on the moon  
I'm on the moon, yeah yeah  
I'm on the moon  
I'm on the moon, yeah yeah
