

San Francisco

Ghost of the Robot

Maybe we should move to San Francisco
Maybe we should take our issues there
Find a place that we could share
Closer to the ocean air
And all our troubles seem to disappear

We've been going round and round in circles
And we've had a lot of time to hide
So if you are happy enough
Smile since you are my love
Who's driving us that far to keep the dream alive

It is so wrong
If we must carry on
Existing in
The state that we're in
With you I'm home
So let's hit the road with all that we own
San Francisco will heal our scars and souls

Darlin' take my hand and let's go far away
California causes to its shores
I will always speak the truth
When it comes to me and you
So lock me up in Alcatraz
If our dreams don't come true

It is so wrong
That we must carry on
Existing in
The state that we're in
With you I'm home
So let's hit the road with all that we own
San Francisco will heal our scars and souls

Maybe we should move to San Francisco
Maybe we should take our issues there
If we make it to the bay
Then everyday's a holiday
I know we'll get there faster
So much faster if we run
I know we'll get there faster
So much faster if we run
