

## Vandals

### Ghost of the Robot

Beard brook park on a Saturday night  
Found ourselves running from a cops spotlight  
Climbing aboard sneaking up on a train  
We just trying to keep ourselves from going insane  
Sometimes it worked... it worked

We're just escaping the boredom of the middle classes  
Keeping out of trouble by running fast  
We're just foolish kids on a Saturday night, yeah  
We're button down vandals out of sight

Jack in the Box Yosemite Drive  
Beer in the back seat we're side by side  
So we take some snapshots for the kids  
Bras on our heads and shit eating grins  
That's us no shame

We're just escaping the boredom of the middle classes and  
Keeping out of trouble by running fast  
We're just foolish kids on a Saturday night, yeah  
We're button down vandals out of sight...

Now I remember hanging out with the boys  
Johnny and Derrick and Davey and Gordon  
Now our mothers were all worried about us man  
They didn't think we were gonna graduate  
But I look around now and we're all doctors and lawyers and dad  
s and stuff

We were just escaping the boredom of the middle classes and  
Keeping out of trouble by running fast  
We're just foolish kids on a Saturday night, yeah  
We're button down vandals out of sight
