

## Heroin

## Ghost Town

Intoxication, oblivion, and black  
Slumber awaits me  
And I'll sleep until you're back

Your lullaby  
Is your cold kiss upon my lips  
Send me off to sleep  
Dream eternally

Dream eternally  
Dream eternally  
Now I'm off to sleep  
Meet me in my dreams

Sleep eternally  
Meet me in my dreams

Tuck me in at last  
Slow my heart beat down  
Slow my heart beat  
Slow my heart beat down

Tuck me in at last  
Slow my heart beat down  
I want death to be dazzling

Slow my heart beat  
Slow my heart beat down

I've had a time machine  
This entire time  
When I close my eyes,  
Open up my mind

Sleep my days away  
Dream to see your face

Now let's embrace  
Exhale these clouds  
Let's fly away  
To the pearly gates  
And if it's fake,  
Then let me sleep

Don't wake me up

Sleep eternally  
Meet me in my dreams

Tuck me in at last  
Slow my heart beat down  
Slow my heart beat  
Slow my heart beat down

Tuck me in at last  
Slow my heart beat down  
I want death to be dazzling

Don't wake me up

Your words are ammunition  
Your lips are like a gun  
You whispered in my ear  
I think your time has come

Nodding out to your voice  
As if I had a choice

Slow my heart beat  
Slow my heart beat down

Tuck me in at last  
Slow my heart beat down  
Slow my heart beat  
Slow my heart beat down

I want death to be dazzling

Slow my heart beat  
Slow my heart beat down

Tuck me in at last  
Slow my heart beat down  
I want death to be dazzling
