Rockstar Killer

Ghost Town

They said
Chase it all you want, you'll never get it kid
Feed that endless void, you'll never fill it in
What's it gonna take before I fucking break
I waste away the time that I was given
But block shut all the thoughts I've ever given up
What's it gonna take before I fucking break

I'll fix, I'll feed the kiss inside
What do I gotta do to open my eyes
All the lies

Rockstar killer
Rockstar killer
Rock bottom's all that's left

Worshiping the God that wants to kill us all
Hoping that tomorrow's gonna fix it all
What's it gonna take before I fucking change
Impulse at its best, 'cause now a moral is
History repeats, it's on the forecast
What's it gonna take before I fucking change

The sex, the drugs, the rock 'n' roll
What do I gotta do to kill this role
No control

Rockstar killer
Rockstar killer
I always seem to dose it up fast
Killing so sweet
It's always on my mind
Rockstar killer
Rock bottom's all that's left

Maybe it's better this way
The dream is dead anyway
If I'm keeping my head straight
The demons will taste the pain

Rockstar killer
Rockstar killer, whoa

Rockstar killer
Rockstar killer
I always seem to dose it up fast
Kill me so sweet
It's always on my mind
Rockstar killer
Rock bottom's all that's left
