

Twin Flame

Ghost Town

I always evaded the truth
Continued to lose
A piece of my mind at a time

They said I was in for the win
But It's not guaranteed when you kill to get in
I pray to the moon
Shes greater than I
Blood for blood
Yea,
Eye for an eye

If it's too insidious
then don't consider this something you should ever fuckin' try, no

Yea,
I know you know I know.
It's not gonna take my pain away

I know, I know, I know
But you're going to try it anyway

Tonight when I can't sleep
The memories that haunt me
Your Spirit is present
My thoughts manifest it

They call it a séance
I call it what made us

I summoned a lover
The Heat of a twin flame

Something is telling me fight
Am hearing this right?
Cuz I'm hearing it every night

But I don't know where to begin
Cuz calling your name, they say it's a sin
This crucifix on my neck, is burning my chest
I know that I'm damned at best

Tonight when I can't sleep
The memories that haunt me
Your Spirit is present
My thoughts manifest it

They call it a séance
I call it what made us

I summoned a lover
The Heat of a twin flame

2 souls nearing the end of our earthly damnation
Transcend, never again.. our love is stronger, stronger

We did it till the end

I'd live and die again
I do it all for you
My Juliet, it's true
I'll give you Romeo
Just to fuckin' prove!

Tonight when I can't sleep
The memories that haunt me
Your Spirit is present
My thoughts manifest it

They call it a séance
I call it what made us

I summoned a lover
The Heat of a twin flame
