

I'm not in this universe
My body's stuck in reverse
My lungs are always short of breath,
You see these tracks you know the rest.
My face is skuffed my eyes are black,
Where's the point where I turn back?

And I can't help but think that this isn't me
But maybe they're right. Maybe this is all a lie.
And I followed a sign that brought me to my life as I know it.
and I can't find myself cuz....

You've taken control
Of my heart and my soul
Tried to call but your phones disconnected
Girl you know that I can not accept this

Now I'm stuck in my head
While you lie in your bed
Trying to sleep just to forget my name
Trying to sleep just to block out the pain

Born to believe what the world gave to me
Was everything that I'd ever be.
As we're lifted up high. These thoughts have arrived
To bring back some sense to our dwindling minds.
And so it goes the years fly by.
The more regrets the less I try.
I just might die.

And I can't help but think that this isn't me
But maybe they're right. Maybe this is all a lie.

You've taken control
Of my heart and my soul
Tried to call but your phones disconnected
Girl you know that I can not accept this

Now I'm stuck in my head
While you lie in your bed
Trying to sleep just to forget my name
Trying to sleep just to block out the pain

Don't want to feel this pain anymore...

I'm not in this universe
My body's stuck in reverse.
My lungs are always short of breath,
you see these tracks you know the rest.
My face is skuffed my eyes are black,
Where's the point where I turn back?

You've taken control
Of my heart and my soul
Tried to call but your phones disconnected
Girl you know that I can not accept this

Now I'm stuck in my head
While you lie in your bed
Trying to sleep just to forget my name
Trying to sleep just to block out the pain
