Waiting for the Night

Ghost

I'm waiting for the night to fall I know that it will save us all When everything's dark Keeps us from the stark reality

I'm waiting for the night to fall When everything is bearable And there in the still All that you feel is tranquillity

There is a star in the sky
Guiding my way with its light
And in the glow of the moon
Know my deliverance will come soon

I've been waiting for the night to fall I know that it would save us all Now everything's dark Keeps us from the stark reality

I've been waiting for the night to fall Now everything is bearable And here in the still All that you feel is tranquillity

There is a sound in the calm Someone is coming to harm I press my hands to my ears It's easier here just to forget fear

And when I squinted
The world seemed rose-tinted
And angels appeared to descend
To my surprise
With half-closed eyes
Things looked even better
Than when they were opened

There is a star in the sky
Guiding my way with its light
And in the glow of the moon
Know my deliverance will come soon

There is a star in the sky
Guiding my way with its light
And in the glow of the moon
Know my deliverance will come soon
