Ghostemane

I've seen the worst
Of humanity
I know my worth
No matter what you say to me

But now I'm all in doubt
What have you done to me
I wanna sort it out
I need a way out

I can't breathe
With your grip on me
You used to be for me the biggest escape
But now you are just another name
That I can't here I can't see I can't speak

Put it all behind me now I'm getting away
Creating nothing but distance
I'm tryin to make myself a better man
So stay away
