

Out

I've been living a lie  
They told me to never give in, and fight  
For whatever you want in life  
But what if what I really want is a  
One way free ride  
Right into the next life, with the next knife  
If I see anyone near me or in my vicinity  
Count down the days

Out

I've been living a lie  
They told me to never give in, and fight  
For whatever you want in life  
But what if what I really want is a  
One way free ride  
Right into the next life, with the next knife  
If I see anyone near me or in my vicinity  
Count down the days

So many promises
