See I just can't relate  
You try to pretend we're the same  
But we ain't the same  
You try to pretend for the fame  
I say you a lame  
I can't relate, I can't relate  
I cannot relate, I cannot relate  
Nah yeah  
You try to pretend we're the same  
But we ain't the same  
You try to pretend for the fame  
I say you a lame  
I can't relate, I can't relate  
I cannot relate, I cannot relate

Had an epiphany  
Scream this - I'm in control of my destiny  
Ominous entity mephisto has no control of me  
Rather be wrapped up in cellophane then give my soul for the fame  
Well I must be new to this game even though they all know my name  
All I ever wanted was another one to feel me on a mental level  
and not just the devil or malevolent evolutions of the animal in me  
You tell me you feel me but I don't believe it the next thing I know you gonna turn on me  
Let everybody believe the lies  
I'll be fine  
I'll be fine

See I just can't relate  
You try to pretend we're the same  
But we ain't the same  
You try to pretend for the fame  
I say you a lame  
I can't relate, I can't relate  
I cannot relate, I cannot relate  
Nah yeah  
You try to pretend we're the same  
But we ain't the same  
You try to pretend for the fame  
I say you a lame  
I can't relate, I can't relate  
I cannot relate, I cannot relate
