Ghostemane

(I often lay in bed and think about the distance
Between me and the nearest star I wish that I could be in
I often lay in bed and think about the distance
Between me and the nearest star I wish that I could be in)

I often lay in bed and think about the distance
Between me and the nearest star I wish that I could be in
I often lay in bed and think about the distance
Between me and the nearest star I wish that I could be in
